Talking to your doctor about PD.

As with any important medical decision, getting a physician’s approval and advice is critical. You’ll want to be sure that PD fits your health requirements and lifestyle needs. Below are some questions you may want to ask.

- Is PD right for me?
- How will I benefit from PD/home dialysis?
- How often will I need to do treatments to experience these benefits?
- Are there any drawbacks to PD therapy? What are the risks?
- How will I learn to properly do PD at home?
- Will my insurance cover PD?
- What therapy would you choose for yourself if you had kidney failure?
- How long do most patients stay on PD?

To learn more about Peritoneal Dialysis, talk to your care team.

You can also speak directly with someone who has been through the dialysis journey by arranging a conversation with one of our NxStage Patient Consultants. All consultants are former or current patients or care partners. Call us at 1-888-200-6456.
